DETAILED ACTION

Allowable Subject Matter

1. Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance:

In reference to claims 1 and 9, the prior art of record (Sadowski et al. (U.S. Patent 6,744,917), Hoshuyama (U.S. Publication 2004/0119843) and Hibi et al. (U.S. Publication 2004/0228523)), does not explicitly disclose obtaining a deviation of S2 and S3 component values from a predefined neutral axis for all pixels in an image whose S2 component value is either the low or high extremum, testing a condition that certain of the deviations are within predetermined thresholds and determining, if the condition holds true, that the image is in a luminance-chrominance color space, with the further limitations of claims 1 and 9 respectively.

In reference to claims 2-8 and 10-16, claims 2-8 and 10-16 are also indicated as allowable because they claim dependency upon allowable claims 1 and 9 respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

2. Applicant's arguments, see page 3 of Applicant's Remarks, filed 03/11/05, with respect to the objection of the specification have been fully considered and are persuasive. The
